

NES Health – Into the future... on the leading-edge

NES Health and our Total WellNES System is the culmination of 30 years of research into the 'Human Body-field' by the late frontier scientist Peter Fraser, and visionary and entrepreneur, Harry Massey.

Never has the human body-field been mapped and understood in such a comprehensive way... until now. If you're wondering how this benefits you, that's easy to answer.

NES Health is dedicated to helping you achieve greater health and well-being through natural and safe tools, techniques, products and services.

We have invested nearly a decade developing ways to enhance the human body's innate self-healing abilities and have identified that there are 3 critical factors for achieving total wellness:

- The Energy that flows through your body
- The information that is created, distributed and regulated within it
- The Purpose behind your choices

Now is the perfect time for you to experience the real-world benefits for yourself and THRIVE.

Leading the field in the new science of bio-energy and bio-information, our goal is nothing less than igniting a global healthcare revolution consisting of individuals just like you who control their own health, and a network of qualified healthcare practitioners who are ready to make a real difference with our time-tested and proven cohesive Total WellNES System and 4-step process:

- (Re)-Assess with NES PoVision
- Rejuvenate with NES miHealth
- Re-Imprint with NES Infoceuticals
- Re-align purpose with Choice Point

NES HEALTH

NES Health is based on one core principle:
Energy and information control biology.

Frontier science proves that there is a regulating field of energy and information that operates in the physical body at the subcellular level. At NES Health, we call this the Human Body-field, and we have researched its functions and structures for more than 30 years.

In that time we have discovered that the root causes of physical problems are distortions and blockages in the body-field, which serves as a master control system for all physiological function. The harmonious interaction of the components that comprise our **Total WellNES System** correct these distortions, so the body-field and body can more easily and naturally return to optimum function.

Welcome to the NES Health Total WellNES System

(Re-)Assess with NES ProVision

A revealing whole-being scan to assess your body and body-field and identify the distortions in energy and information flow.

NES ProVision Advanced Analysis Software is a comprehensive health assessment tool that probes the human body-field to identify the bio-energetic and bio-informational distortions that may underlie physical and emotional issues. By simply placing your hand on a scanning device, in moments the software returns more than 150 results about your body and body-field in anatomically-correct and extremely detailed graphical representations that include:

- Major organs and organ systems
- Environmental influences, such as toxins and electromagnetic fields (EMFs)
- Nutritional influences
- Musculoskeletal system
- Emotions, including trauma and shock
- Body-field structures

NES ProVision allows your qualified NES Practitioner to see beyond your symptoms to clearly distinguish the source distortions across your entire body-field and address them specifically.

The scan advises your NES Practitioner on the correct NES miHealth therapy functions to re-juvenate your energy flows; the correct NES Infoceuticals to re-imprint the information in your body-field and restore your body's own self-healing capacities.

And now for the first time, the new Home WellNES System allows your practitioner to remotely scan your body-field so that you can remain in the comfort of your own home!

(WellNES Anytime, Anywhere.)
